

TRADERSGROWTH · THE GOLD CLUB

Gold Trading Bootcamp

Stop guessing your Gold trades. Build a strategy you can actually follow.

Recorded programme | 2 months access | Support included | Delivered in Discord

DOES THIS SOUND FAMILIAR?

You know how to trade. But your decisions still change from trade to trade.

You see a setup, but you're not always sure whether it's actually worth taking.

You know where you could enter, but don't have one clear confirmation process you trust.

You understand risk management, but your risk, stops or trade management can still change in the moment.

You've watched videos, followed signals and learned different concepts — but haven't turned it into one repeatable process.

THE FIX

That's what the Gold Bootcamp is built to fix.

You learn one defined Gold trading process, test it, practise it and understand the rules behind each decision — so you're not starting from zero every time you open the chart.

WHAT YOU GET

A Gold trading course built around one process.

2 Months

Recorded programme. Learn at your own pace.

One Gold Strategy

Defined setup, entry, exit and risk rules.

Indicator Access

Trial included for entry confirmation.

Support

Ask questions when something isn't clear.

Test & Practise

Backtesting, review and structured homework.

10:30–16:00 CET

The primary trading window used in the strategy.

WHAT YOU'LL LEARN

One process. From reading the chart to placing the trade.

01

Read the market

Technical foundations: market structure, context, levels and points of interest.

02

Define the trade

Entry, exit, stop-loss, position risk and how the trade is managed once it is open.

03

Filter the trade

Which setups are worth taking and which are not, with the indicator used to confirm entries.

WHAT YOU'LL LEARN

Then you test it, size it and hold yourself to it.

04

Test the rules

Backtesting and forward testing, then reviewing your own decisions to find what is actually working.

05

Manage risk and capital

Risk allocation, capital management, drawdown control and adapting to prop-firm restrictions.

06

Handle the pressure

Making decisions consistently, dealing with emotion, and trading the 10:30–16:00 CET window to plan.

HOW EACH LESSON WORKS

A little theory. A lot of practice.

Theory

The concept explained plainly — what it is, why it matters and where it fits in the process.

Practice

Applied to real Gold charts, so you see the rule working rather than just hearing it.

Homework

Your own work on your own charts, so the rule is tested by you before you trade it.

Every lesson follows the same shape, so you are never just watching — you finish each one having done the work yourself.

HISTORICAL RESULTS

How the strategy performed across the periods shown.

Results shown using the stated historical strategy record and a 1% risk model.

Historical strategy results supplied by The Gold Club and internally reviewed. They do not represent guaranteed subscriber returns. Past performance does not guarantee future results.

STUDENT EXPERIENCE

What changed after the Bootcamp.

"I relied on Telegram signals and had no consistent strategy. The Bootcamp changed my understanding of risk management and gave me a system I could practise independently."

Markuss

"Before the Bootcamp, I could follow signals but could not read charts or trade independently. During the programme, I learned to understand the charts, use a clear strategy and enter trades on my own."

Daina

"The strategy logic, risk management and indicator created a more systematic approach. Decisions became less emotional because entries were based on clear confirmations."

Karolina L.

"The Bootcamp gave me a complete system: zones, indicator confirmation and rules. It reduced chaos, guessing and unnecessary emotion."

Vadim

Individual experiences are personal examples and are not representative or guaranteed. Trading outcomes depend on the trader's own execution, risk and discipline.

WHAT YOU GET, MONTH BY MONTH

Two months of access. Here is exactly what is in each.

MONTH 1

Everything switched on

Recorded education

The full programme, lessons around 30–60 minutes each.

Support chat

Ask any question as you work through the material.

View-only VIP chat

See what the VIP community is doing day to day.

Indicator access

Used to confirm sniper entries alongside your own rules.

MONTH 2

Education continues

Recorded education

Full access to the programme continues, so you can revisit and rewatch.

Support chat, view-only VIP and indicator access run for month 1. Everything is delivered in Discord.

WHAT HAPPENS AFTER THE BOOTCAMP?

The goal is independence.

You keep the strategy and the rules you have learned, and can continue testing and trading the process on your own. Nothing renews automatically.

Gold Club VIP €150 / month optional, separate

If you want the indicator and the community to continue:

Daily live sessions and daily training

Weekly deep question & answer sessions

Continued indicator access

Community, market analysis and additional education

READY TO STOP GUESSING?

Learn the strategy. Then prove it to yourself.

Go through the programme, test the rules, practise the setup and build a trading process you understand — instead of relying on someone else's trades.

€697 2 months access · Recorded · Support included
